WHO WE ARE

About Us

Nusantara Ocean Export (NOE) is a leading Indonesian-based B2B seafood export management company and supply chain aggregator. Operating as an Authorized Export Sales Representative, we bridge Indonesia's rich marine bio-resources directly with international importers, food service distributors, and modern retail chains across the ASEAN region and globally.

We manage the entire international trade ecosystem in an integrated manner — ranging from product specification customization, on-site quality control, customs and quarantine clearance, to international-standard cold chain logistics.

Specification Customization

Product specifications tailored to each buyer's market and program.

On-Site Quality Control

Inspection at source to keep every lot export-grade.

Customs & Quarantine Clearance

Complete export documentation and Barantin clearance.

Cold Chain Logistics

International-standard refrigerated logistics to destination ports.

INDUSTRIAL BACKBONE

Strategic Factory Partner

Nusantara Ocean Export's supply capacity and operational reliability are fully backed by a strategic partnership with a premier integrated seafood processor in Indonesia:

PT Dua Putra Utama Makmur Tbk

A Publicly Listed Company (Tbk) and Leader in Indonesia's Integrated Fishery Processing & Cold Storage Industry.

IDX STOCK CODE
DPUM

This synergy provides a competitive advantage of **Aggressive & Responsive Export Management Services**, combined with **Giant Industrial Infrastructure in Central Java**.

Cold Storage Capacity

25,000 Metric Tons (MT) of cold storage capacity, securing year-round export supply continuity.

Freezing Technologies

Air Blast Freezers (ABF), IQF Tunnel Freezers, and Cryogenic Mesh-Belt Freezers — maintaining consistent temperatures between −18°C and −40°C.

Processing Complex — 28 Units

Automatic Sort-Rite weight graders, deheading & peeling clean-room conveyors, automated steam cookers, WTP/WWTP water treatment plants, microbiological testing laboratories, and a WMS Barcoding System for complete product traceability.

FOOD SAFETY FIRST

Certifications & Global Compliance

All partner processing facilities operate under strict international food safety management systems and are officially registered with various global authorities.

HACCP Certified

Hazard Analysis Critical Control Point certified under the Codex Alimentarius framework.

BRCGS Food Safety

BRCGS Food Safety Issue 9 — the Global Standard for Food Safety.

Halal Certification

BPJPH — Ministry of Religious Affairs RI certification, globally recognized.

FDA & EU Registered Export Facilities

Processing facilities officially registered with the United States FDA and the European Union for export.

Official Health Certificate (HC)

Issued by the Indonesian Quarantine Authority (Barantin) for **every export shipment**.

Compliance on Every Shipment

From HACCP and BRCGS Issue 9 to Halal, FDA & EU registration, and Barantin Health Certificates — global buyers receive fully documented, audit-ready consignments.

4
